WPVC IL WPC ARTIGIANALE MADE IN ITALY, ECOLOGICO, UNICO

**É brevettato, Incollabile, artigianale ed è UNICO.**

## **PERCHÉ UN WPC A BASE DI PVC?**

Abbiamo scelto il pvc perché tra i polimeri per uso esterno è il migliore in quanto:

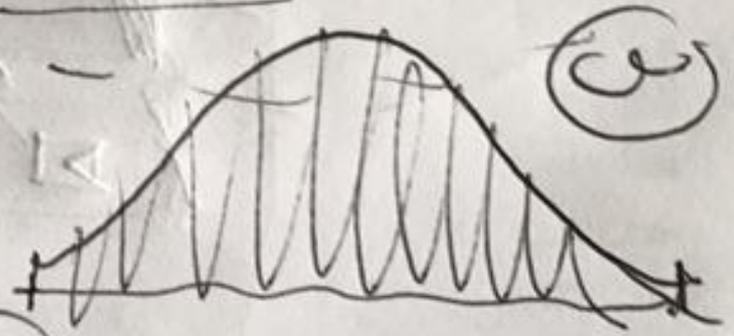

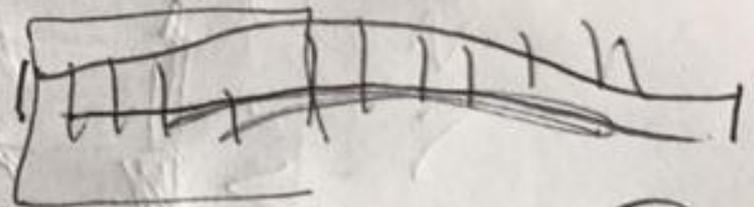

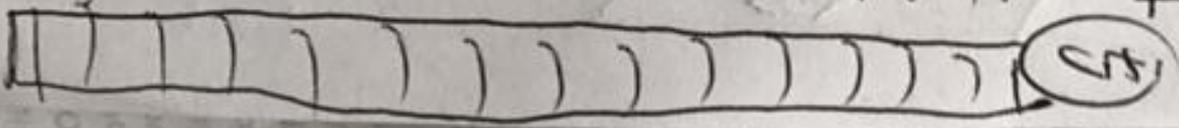

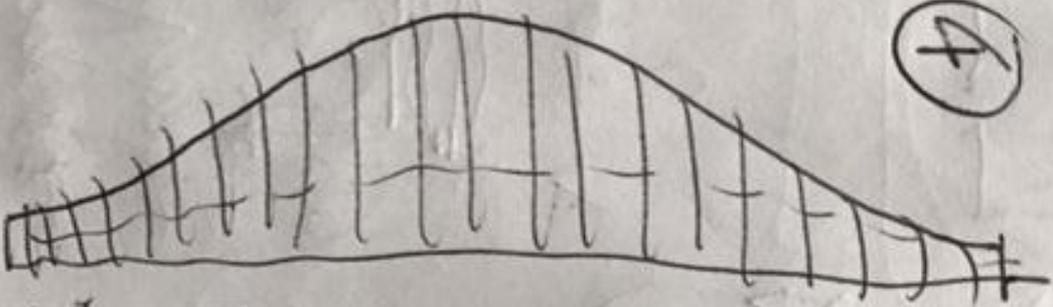

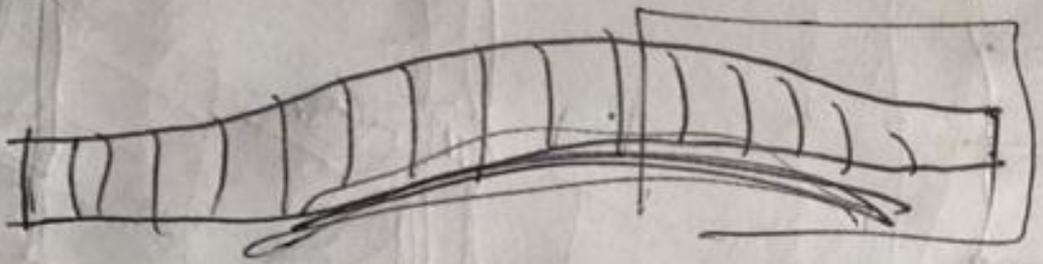

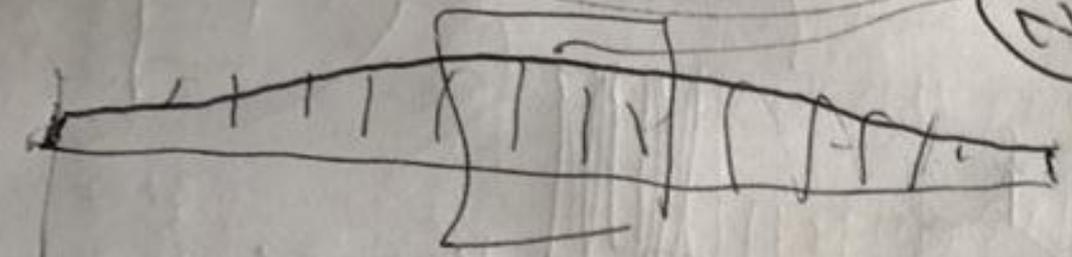

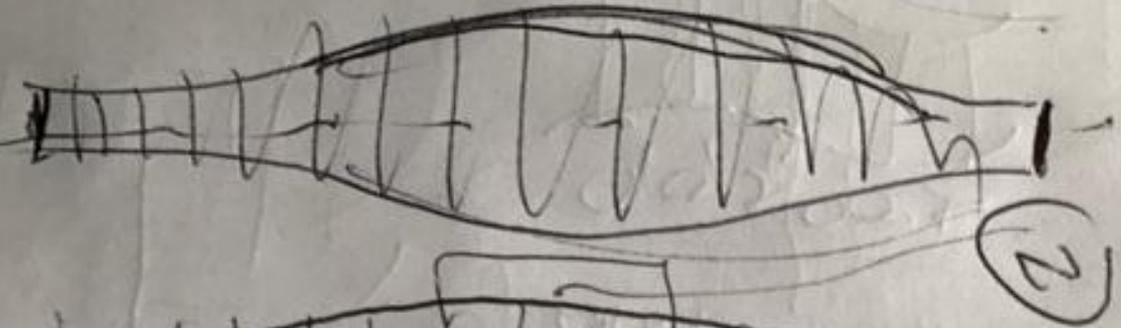

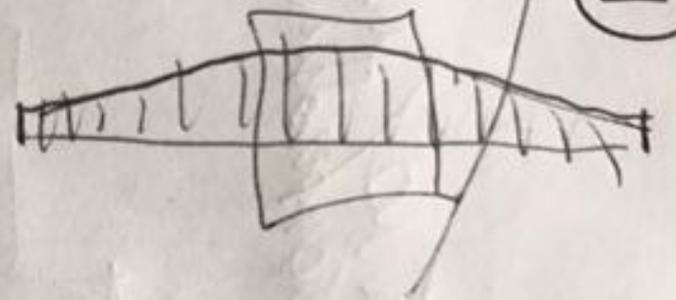

1. Dilatazione minima
2. Resiste ad alte e basse temperature
3. È isolante
4. È ignifugo
5. Possiede elevate proprietà meccaniche

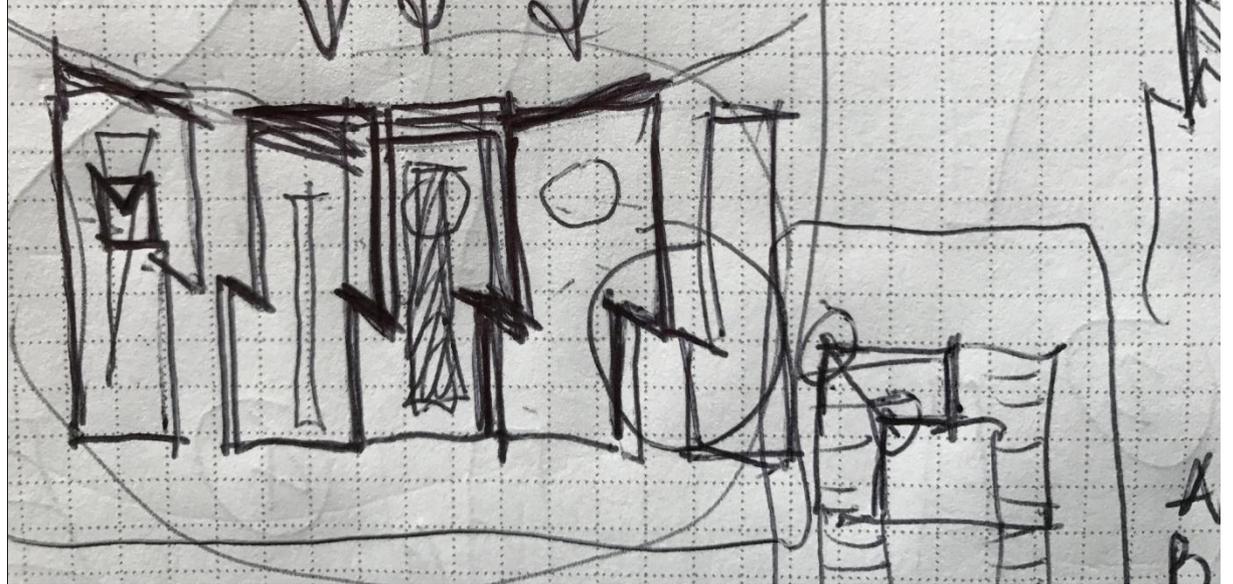

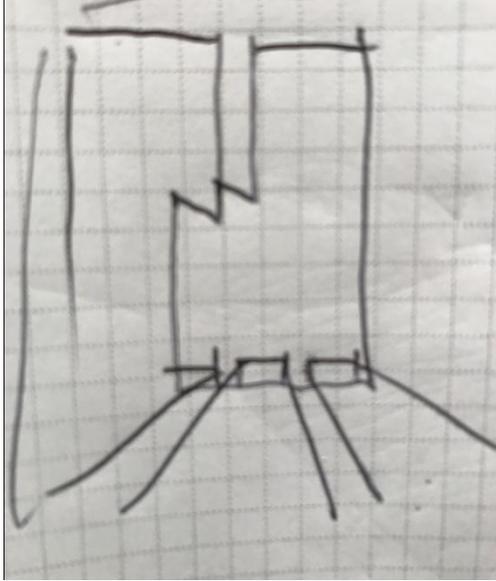

## **PERCHÉ SOLO IL 20% DI FARINA LEGNO?**

Perché siano intatte le proprietà fisiche e meccaniche, perché il profilo non si deteriori nel tempo secondo il comune ciclo di vita di un normale listello in legno.

## **PERCHÉ È UN PRODOTTO ECOLOGICO?**

Perché è riciclato al 100% sia nella sua componente plastica che legno, è certificato PSV ed è nuovamente riciclabile.
